

OYEDEJI TEMITAYO SAMSON

Co-Founder | Managing Director/COO
AI/ML Practitioner | UAV Technology Professional | Mathematics Educator
UAV HUB SYSTEMS LIMITED

I am a multidisciplinary technology and education professional with expertise across **Artificial Intelligence & Machine Learning, UAV/Drone Technology, Mathematics Education, STEM**, and digital solutions.

I am the Co-Founder and Managing Director/COO of **UAV HUB SYSTEMS LIMITED**, a technology-driven company focused on UAV innovation, drone services, STEM education, AI/ML solutions, training, and emerging technology applications.

With extensive experience in education and a growing specialization in Python, AI/ML, data-driven solutions, and digital product development, I combine educational expertise with technology and entrepreneurship to develop practical solutions to real-world problems.

CORE EXPERTISE

AI/ML	Python	UAV & Drone Technology
STEM Education	Mathematics Education	Digital Solutions
Technology Training	Entrepreneurship	Innovation

WHAT I DO

- Develop and explore AI/ML-powered solutions
- Design and deploy practical UAV/drone applications
- Deliver STEM and technology education
- Develop digital products and technology solutions
- Provide Mathematics and Further Mathematics education
- Help organizations identify practical applications of emerging technologies

PROFESSIONAL VISION

To bridge technology, education, and entrepreneurship to create practical solutions that empower people, organizations, and the next generation of innovators.

Technology. Education. Innovation. Impact.
